Mission: The Science and Technology Park of Taquari Valley - Tecnovates has the mission to promote innovation and technology into the Taquari Vally. Providing to people and companies with space, laboratory facilities and qualified personnel for research and development (R&D), focusing on food products, environmental protection technologies and alternative energy sources Tecnovates is located inside of the University of Taquari Valley, also is associate to REGINP, ANPROTEC and IASP, being regional, national and international associations

Tecnovates looks to establish links with companies abroad in order to provide start ups exchange and developed research programs (R&D). Partnerships are in place with Almeria Scientific Park - PITA and University of Taquati Valley.

The Technological Incubator of Univates - Inovates aims to support new entrepreneurs in the production and provision of services characterized by technological content and the innovation of their processes and business models. Pre-incubation is the stage in which entrepreneurs receive support from the incubator through mentoring, consulting and qualifications to develop their business plan and transform their ideas into successful ventures. Incubation is the stage in which entrepreneurs execute and validate their business plan with the support of the incubator.

R&D&I Areas of interest:

- BioTech and Food Technologies
- Electrochemical Characterizations
- Health and Wellness Technologies
- Environmental and Energy Technologies
- Information, Automation and Creative Industry Technologies
